

Stephanie Criteser, RD, CSP

PROFESSIONAL EXPERIENCE

Private Practice Dietitian, Traverse City, MI, December 2022-Present

- Operate as an independent consultant, providing care to clients of Advanced Ketogenic Therapies, LLC
- Lead adult and pediatric clients through the process of initiating and managing ketogenic metabolic therapy, providing personalized guidance and specialized care
- Provide ketogenic metabolic therapy as a treatment for conditions including epilepsy, mental health disorders such as bipolar disorder and schizophrenia, migraines, cancer, and neurodegenerative disorders such as Alzheimer's disease
- Use telehealth platforms to deliver high-quality virtual care, managing weight and growth patterns expertly despite the inability to be face-to-face with clients
- Collaborate with clients' medical teams to deliver care plans that integrate seamlessly with overall treatment strategies
- Customize ketogenic therapy to each client's unique needs and lifestyle, focusing on education, meal planning, and sustainable strategies for long-term success
- Deliver clear, compassionate education to empower clients, ensuring adherence and achievement of therapeutic goals through continuous support and monitoring
- Contribute to the development of the AKT Keto Community, an online membership platform designed to support individuals using ketogenic therapy for mental health and neurological conditions
- Create and curate monthly educational content, including themed challenges, meal guides, live event programming, and forum discussions to enhance member engagement and learning
- Plan and deliver live events, such as cooking demonstrations, Q&A sessions, journal clubs, and expert interviews, tailored to support sustainable ketogenic living
- Collaborate with a cross-functional team to design and launch a user-friendly community website, ensuring accessibility, organization, and alignment with therapeutic goals
- Develop and implement strategies to increase member participation and foster a sense of connection among individuals using ketogenic therapy for psychiatric conditions

Children's Hospital Colorado, Aurora, CO, June 2014-May 2022

Clinical Dietitian III

- Provided medical nutrition therapy to medically complex pediatric and young adult patients in the Special Care and Ketogenic Diet clinics
- Developed individualized nutrition care plans using the Academy of Nutrition and Dietetics Nutrition Care Process
- Assessed patients for growth using specialty growth charts when appropriate, pediatric standards and adjusting for special needs
- Monitored labs for nutritional deficiencies and provided diet-compatible recommendations for supplementation when needed
- Ensured success for compliance of a challenging diet by providing counseling, ongoing support to families, creative meal planning, diet adjustments, recipes, and resources
- Managed inpatient ketogenic diet initiations as well as patients on a ketogenic diet who were admitted
- Served as preceptor for dietetic interns rotating through the Special Care Clinic/Ketogenic Diet Clinic and mentor for new hires
- Interacted with patients and team members of various cultural and ethnic backgrounds, using an interpreter to communicate when necessary
- Utilized an electronic medical record for all medical information documentation
- Developed and presented "Diet Therapies for Epilepsy at CHCO", a CPE lecture for all Clinical Nutrition Staff
- Co-presented "The Ketogenic Diet: Clinical & Medication-Related Considerations" along with Special Care Clinic Pharmacists, a lecture for Special Care Clinic providers
- Provided education regarding the ketogenic diet to medical residents as a part of the Food as Medicine elective

Intercare Community Health Network, Pullman, MI, June 2013-May 2014

Maternal Infant Health Program (MIHP) Registered Dietitian

- Provided in-home nutrition education to pregnant and postpartum women, and to mothers of infants at risk of morbidity and mortality

Stephanie Criteser, RD, CSP

- Weighed and measured infants to monitor growth and provided education including formula preparation, age-appropriate foods, and feeding management
- Counseled pregnant and postpartum women on healthful diet, including weight management, foods to avoid during pregnancy, and special concerns for hypertension and gestational diabetes

ARAMARK at The HSC Pediatric Center, Washington, DC, November 2010-May 2013

Clinical Dietitian II

- Provided medical nutrition therapy to medically complex pediatric patients ranging from neonatal infants to adolescents, including patients with special needs
- Served as Interim Clinical Nutrition Manager during CNM maternity leave September 2012-January 2013
- Supplied extensive nutrition education to inpatient children and their caregivers during admission and at discharge, ensuring comprehension of therapeutic diets, modified-consistency diets, and formula/tube feeding preparation
- Participated in weekly multidisciplinary rounds on several inpatient units, including specialty gastrointestinal rounds
- Worked with a medical team that included physicians, nurse practitioners, pharmacists, therapists, and social workers
- Developed and executed weekly nutrition and physical activity lesson plans for Shapedown® clients
- Served as preceptor for Aramark dietetic interns and mentor for new hires within the nutrition department
- Created and delivered in-service presentations to kitchen staff, nursing staff, and peer Registered Dietitians
- Guest lecturer for University of Maryland and Howard University dietetic students on topics including pediatric nutrition and the electronic medical record
- Served as the nutrition liaison on the Butterfly Team – the palliative care committee at The HSC Pediatric Center
- Utilized automated programs for all medical information documentation

University of Michigan Health System, Ann Arbor, MI, July 2010-September 2010
