

Curriculum Vitae – Marisa Laura Armeno, MD, PhD

Pediatrician & Clinical Nutrition Specialist – Adults and Pediatrics

Expert in Ketogenic and Metabolic Therapies for Epilepsy, Mental Health, Oncology, Obesity, Metabolic Syndrome, and Rare Neurometabolic Disorders

1. Education

- **PhD in Medicine**, Catholic University of Argentina, 2019–2024
Thesis: Long-term clinical aspects of Ketogenic Therapy for Refractory Epilepsy –
Directors: Dr. Roberto Caraballo, Dr. Irina Kovalskys.
- **MD**, University of Buenos Aires, 2002
- **Specialist in Pediatrics**, University of Buenos Aires, 2005
- **Specialist in Nutrition and Obesity**, University of Favaloro, 2009
- **Specialist in Child Nutrition**, University of Buenos Aires, 2013
- **Specialization in Clinical Nutrition – Adults**, University of Favaloro, 2009 •
Advanced Training in Metabolic Psychiatry, Dr. Georgia Ede (*Diagnosis.Diet.com*), 2024

2. Postgraduate Training

- Fellowship in Childhood Obesity, Hospital J.P. Garrahan, 2009–2011 • Fellowship in Special Program Grant in Body Composition and Energy Expenditure, Hospital J.P. Garrahan, 2011–2012
- Indirect Calorimetry Training, CCM Express – Medgraphics Corporation, Minneapolis, USA, 2012
- Training in Ketogenic Diet Therapy, Johns Hopkins Medical Center – Neurology Department, Baltimore, USA, 2015
- Training in Body Composition and Energy Expenditure, ICANS – University of Milan, Italy, 2015
- Multiple global ketogenic conferences and advanced courses: Global Keto Conferences (Liverpool 2014, Banff 2016, Brighton 2021, San Diego 2023), Keto University (Chicago 2016), Matthews Friends Keto College (London 2018, 2024, 2025), Keto Summit (Arizona 2019), European GLUT1 Meetings (UK 2018, Germany 2023), Glut1 Deficiency Foundation Meetings (Nashville 2017, Washington 2019, San Diego 2022).

3. Professional Experience

Advance Ketogenic Therapies AKT – International Telehealth Practice

Clinician in Ketogenic and Metabolic Therapy — 2023–Present

- Management of adult patients with **bipolar disorder, schizophrenia, depression, glioblastoma, obesity, and metabolic syndrome** using ketogenic and metabolic approaches.
- Individualized protocol design (classic KD, modified KD, MCT-based approaches) and interdisciplinary coordination with psychiatrists, oncologists, and neurologists.

Metabolic Research Center (CINME), Buenos Aires

Principal Investigator & Clinical Nutrition Specialist — 2024–Present

- Lead research on **Glut1 Deficiency Syndrome, adult and pediatric obesity, and metabolic syndrome**.
- Mentor in research methodology and ketogenic clinical application.

Hospital de Pediatría Prof. Dr. Juan P. Garrahan, Buenos Aires

Staff – Nutrition Department — 2012–2023

- Coordinator, **Interdisciplinary Ketogenic Diet Therapy Team**, 2013–2023 • Coordinator, **Obesity Clinic – Department of Nutrition**, 2015–2023 – Specialized in pediatric obesity and early metabolic risk prevention.

Hospital Alemán, Buenos Aires

Coordinator – Pediatric Ketogenic Therapy Team — 2017–2019

Private Practice – Clinical Nutrition & Ketogenic Therapy — 2005–Present

- second opinion consultation of complex ketogenic diet therapy patients, obesity cases, metabolic syndrome, and neurometabolic disease in both adults and children.

4. Teaching and Research Activities

- **Chair**, Education Committee – International Neurologic Ketogenic Society (INKS), 2024–Present
- **Executive Committee & Board of Trustees**, INKS, 2021–Present
- **Member**, ILAE Task Force on Ketogenic Diet Therapy, 2022–Present • **Coordinator**, Ketogenic Therapy Working Group – Argentine Society of Nutrition (SAN), 2022–Present
- Sub-investigator, Metabolic Research Center (CINME), 2024–Present • Teaching faculty and invited lecturer in **international ketogenic therapy courses** (epilepsy, mental health, oncology, obesity, metabolic syndrome).

- Teacher Assistant, Principles and Practice of Clinical Research (PPCR), Harvard University, 2024
- Co-Director, Childhood and Adolescent Obesity Course – ICCAS, 2022–Present • Invited professor, University of Pavia, Italy (2018 onsite, 2020 online) • Multiple national and international teaching roles in ketogenic therapy for epilepsy, pediatric and adult clinical nutrition.

5. Editorial Activities / Peer Review

- Editor – *Frontiers in Pediatrics*
- Reviewer – *Seizure, Epilepsy & Behavior, Pediatric Neurology, Epilepsia*

6. Awards

- Oral Presentation – 11th International Congress on Obesity, Stockholm, 2010
- Malaspina International Scholar Travel Award – ILSI, USA, 2015

7. Areas of Expertise

- Ketogenic & metabolic therapies for **epilepsy**, **psychiatric disorders** (bipolar disorder, schizophrenia, depression), **neuro-oncology** (glioblastoma), **obesity**, **metabolic syndrome**, and **rare neurometabolic disorders (GLut1DS, PDHD, Mitochondrial Diseases)**.
- Clinical nutrition for **adults and pediatrics**.
- Research design, multicenter collaboration, and knowledge translation. • Professional education and mentorship in ketogenic therapy, obesity management, and metabolic health.

8. Selected Publications

(Full list available upon request; over 30 peer-reviewed articles and book chapters)

- Armeno M, Kossoff EH. *Let Food Be Thy Medicine: The Interaction between Ketogenic Diet Therapy and Antiseizure Medications – A Systematic Review*. *Epileptic Disord*. 2023.
- Tagliabue A, Armeno M, et al. *Ketogenic Diet for Epilepsy and Obesity: Is It the Same?* *Nutr Metab Cardiovasc Dis*. 2024.
