Professional Experience

Registered Dietitian | Sarah Lynn Nutrition | March 2024- present

- Provide remote and in-person medical nutrition therapy for pediatric and adult patients with a wide range of conditions, including obesity, kidney disease, GI disorders, and food allergies
- Develop individualized nutrition plans and educate clients on sustainable dietary changes

Ketogenic Dietitian, Consultant | Advanced Ketogenic Therapies | November 2021- present

- Deliver comprehensive nutrition assessments and individualized ketogenic diet plans for pediatric and adult populations with complex medical conditions, including epilepsy, migraines, cancer, various psychiatric conditions including bipolar disorder, depression, and eating disorders
- Provide expert guidance and education to patients and families on implementing and sustaining ketogenic therapy safely and effectively
- Collaborate closely with multidisciplinary teams—including physicians, neurologists, oncologists, psychiatrists, and therapists—to develop coordinated care plans
- Contribute to clinical research studies investigating the therapeutic role of the ketogenic diet across various disease states
- Support client onboarding, education, and follow-up to ensure positive outcomes and dietary adherence
- Drive new patient acquisition and maintain long-term client relationships through personalized support and quality care

Pediatric Dietitian | NYP/Columbia University Medical Center | October 2015 - March 2024

Outpatient Ketogenic Dietitian/Nutrition Support Specialist (February 2017- March 2024)

- Served as the designated inpatient and outpatient dietitian for all pediatric ketogenic diet cases
- Collaborated with physicians and NPs to determine appropriate formulas, supplements, and feeding regimens
- Developed and updated patient education tools including: Emergency Room Pocket Guide, Patient Contracts, and Ketone Monitoring Logs
- Created letters of medical necessity for oral supplements, enteral feedings, vitamins, and coordinated pharmacy and DME referrals
- Educated medical staff and trained child neurology residents and nursing teams on ketogenic diet management
- Taught clinical nutrition staff on continuing education eligible topics; served as preceptor for dietetic interns
- Member of the Dietetic Internship Applicant Selection Committee
- Led quality assurance reviews of medical charts and updated departmental standards of care
- Served as team Engagement Champion, fostering morale and communication within the department

Pediatric Inpatient Dietitian (October 2015-February 2017)

- Covered pediatric cardiology and neurology floors, including cardiac PICU
- Managed nutrition care for heart transplant patients and developed post-transplant education protocols
- Designed low-fat diets for pediatric patients with chylous effusions
- Participated in formula ordering and inventory management

Inpatient Dietitian, Per Diem | Hospital for Special Surgery | September 2015 – March 2016

- Assessed pre- and post-surgical patients for nutrition risk and delivered appropriate interventions

Outpatient Dietitian | Sodexo, Westchester Medical Center | September 2014-September 2015

- Provided MNT across five outpatient clinics: oncology, high-risk obstetrics, gestational diabetes, HIV, pediatrics
